Kennedy Krieger Institute Genetics Laboratory - Peroxisomal Diseases Section Revised Feb 2010
707 North Broadway, Baltimore, MD 21205

Director: Richard I. Kelley, M.D. Ph.D. Laboratory Manager: Ann B. Moser Technical Supervisor: Richard O. Jones, Ph. D.	Phone: (443) 923-2760 Fax: (443) 923-2755 Email: mosera@kennedykrieger.org	EIN #: CAP#: CLIA#:	52-1524965 1353022 21D0649789

Patient and Report Information

Patient Last Name	Patient First Name	MI	Sex	DOB (Required)	History #

Sample Date	Sample ID#	Other Sample Information

Indicate Where to Send Bill: (Laboratory or Physician)*		**Indicate Where to Send Report:**	
Name		Name	
Address		Address	
City, State, Zip Code		City, State, Zip Code	
Phone Fax	Patient payment, check or credit card*	Phone	Fax

Test Requisition and Sample Information (X Test(s) Desired)

X	Tests using Cultured Cells	CPT Code	Sample Types and Amounts	Cost
	Very Long Chain Fatty Acids (Fibroblast)	88233 82726	2 mm punch sterile skin biopsy in sterile tissue culture media or two T-25 flasks of fibroblasts.	$300
	Peroxisomal Plasmalogen Synthesis (Fibroblast)	88233 82658	2 mm punch sterile skin biopsy in sterile tissue culture media or two T-25 flasks of fibroblasts.	$300
	Phytanic Acid Oxidase (Fibroblast)	88233 82658	2 mm punch sterile skin biopsy in sterile tissue culture media or two T-25 flasks of fibroblasts.	$300
	Pristanic Acid Oxidase (Fibroblast)	88233 82658	2 mm punch sterile skin biopsy in sterile tissue culture media or two T-25 flasks of fibroblasts.	$300
	Catalase Distribution (Fibroblast)	88233 82657	2 mm punch sterile skin biopsy in sterile tissue culture media or two T-25 flasks of fibroblasts.	$300
	Diagnostic Peroxisomal Enzyme Package (Fibroblast) Includes the 5 tests above	88233 82658x3 82657 82726	2 mm punch sterile skin biopsy in sterile tissue culture media or two T-25 flasks of fibroblasts.	$1100
CVS	Peroxisomal Prenatal Diagnosis (For the diagnosis of X-linked ALD, Zellweger Syndrome, neonatal ALD, and rhizomelic chondrodysplasia punctata). **Prior Arrangement Required**. **Please circle the sample type in the box to the left.**	88235 82726 82658 (the same for CVS or AF)	Cultured CVS (two T-25 flasks) **This test includes the required maternal cell contamination studies.**	$1150
AF			Whole amniotic fluid (15-30ml) or cultured amniocytes (two T-25 flasks). **This test includes the required maternal cell contamination studies.**	$1150

Sample Shipping: Samples must be shipped in leak proof containers completely filled with sterile tissue culture media.
Ship samples to arrive on weekdays only to: Kennedy Krieger Institute
Peroxisomal Diseases Section, Room 530
707 North Broadway, Baltimore, MD 21205

We regret that we are unable to bill insurance. Except of Institutional billing we expect payment in full (credit card or check in US funds) on receipt of the sample.

***Billing:** Credit Card Type: _____ Card Number _____

Exp. Date _____ Security Code (usually on back of card) _____ Signature:_____
